# Steriliser

**SN75** 

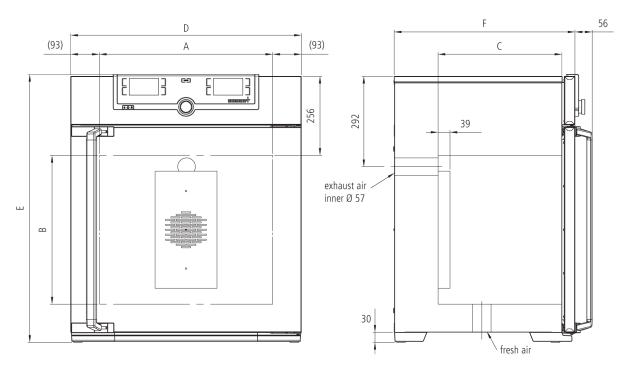

Safer than disinfection, hot-air sterilisation of containers and instruments

**Experts in Thermostatics** 

The indispensable safety feature for this hot air steriliser: Setpoint Wait. This means that the programme for sterilisation only starts when the set temperature has been reached. This feature can also be used with freely positionable Pt100 temperature sensors. Here the sterilisation time only begins when the set temperature has been reached at all measurement points, and reliable sterilisation is guaranteed at all times.

On this page, you can find all the essential technical data on the Memmert hot air steriliser. Our customer relations team will be pleased to help if you want further information. If you should require a customised special solution, please contact our technical specialists at <u>myAtmoSAFE@memmert.com</u>.

| ControlCOCKPIT | adaptive multifunctional digital PID-microprocessor controller with high-definition TFT-colour display |
|----------------|--|
| Temperature    | 1 Pt100 sensor DIN class A in 4-wire-circuit   |
| Timer          | Digital backwards counter with target time setting, adjustable from 1 minute to 99 days                |

## **Control of standard components**

## Temperature

| Set temperature range in °C | min. 5°C above ambient up to +250°C  |
|-----------------------------|--|
|                             | resolution of display for setpoint values 0.1°C up to 99.9°C, 0.5°C from 100°C and for actual values |
|                             | 0.1°C (LED)  |
|                             |  |

## **Control technology**

| adjustable parameters | temperature (Celsius or Fahrenheit), air flap position, programme time, time zones, summertime/wintertime |
|-----------------------|---|
| Function SetpointWAIT | the process time does not start until the set temperature is reached                                      |
| Language setting      | German/English/Spanish/French   |
| Calibration           | three freely selectable temperature values  |

#### Ventilation

#### natural convection

| Fresh air admixture | adjustment of pre-heated fresh air admixture by air flap control in 10 % steps |
|---------------------|--|
| Vent                | vent connection with restrictor flap   |

| Communication       |   |
|---------------------|---|
| Programming         | AtmoCONTROL software for reading out, managing and organising the data logger via Ethernet interface (temporary trial version can be downloaded). USB stick with AtmoCONTROL software available as accessory (on demand). |
| Documentation       | programme stored in case of power failure   |
| Safety              |   |
| Temperature control | adjustable electronic overtemperature monitor and mechanical temperature limiter TB, protection class   |

| Autodiagnostic system | for fault analysis  |
|-----------------------|---|
|                       | 1 according to DIN 12880 to switch off the heating approx. 20°C above nominal temperature             |
| remperature control   | adjustable electronic overtemperature monitor and mechanical temperature inniter 15, protection class |

## Standard equipment

| Door              | fully insulated stainless steel door with2-point locking (compression door lock)   |
|-------------------|--|
| Internals         | 2 stainless steel grids  |
| Scope of delivery | incl. works calibration certificate for +160°C   |
| Housing           | rear zinc-plated steel   |
| Interior          | easy-to-clean interior,made of stainless steel,reinforced by deep drawn ribbing with integrated and protected large-area heating on four sides |

## **Stainless steel interior**

| Dimensions W x H x D in mm | w <sub>(A)</sub> x h <sub>(B)</sub> x d <sub>(C)</sub> : 400 x 560 x 330 mm |
|----------------------------|---|
| Volume                     | 74  |
| Max. loading of chamber:   | 120 kg  |

#### Textured stainless steel casing

#### **Electrical data**

| Voltage<br>Electrical load | 230 V, 50/60 Hz<br>approx. 2500 W |  |
|----------------------------|-----------------------------------|--|
| Voltage<br>Electrical load | 115 V, 50/60 Hz<br>approx. 1800 W |  |

## Packing/shipping data

#### the appliances must be transported upright

| Customs tariff number             | 8419 8998                      |
|-----------------------------------|--------------------------------|
| Country of origin                 | Federal Republic of Germany    |
| WEEE-RegNo.                       | DE 66812464                    |
| Dimensions approx incl.<br>carton | B x H x T: 730 x 1130 x 670 mm |
| Net weight                        | approx. 66 kg                  |
| Gross weight carton               | approx. 85 kg                  |
|                                   |                                |

## Standard units are safety-approved and bear the test marks
